## PRE-OPENING SALE IS SET FOR SATURDAY

Is Given To Local  
People By Firm

Metropolitan Square, the C. P. Murdock subdivision at Twenty-third street and Macdonald avenue, will be thrown open to the buying public of Richmond for the first time next Saturday, May 21, in a pre-opening sale.

"We are giving the people of Richmond an opportunity to invest in what will ultimately become the business and residential center of the community, before inviting interests of Oakland and San Francisco here," Frank W. Epperson, tract manager and well known East Bay real estate man, declared yesterday.

"It is fitting that the tract opening comes on the same date as that set for the dedication of the Carquinez bridge. Both represent a new era in Richmond's progress."

"Twenty-third street is the logical connecting link with the highway leading to the great bay," Epperson gave it as his belief that attention should be paid to making Twenty-third street the means of entry into Richmond.

"There is great danger," he said, "that the thousands of cars due to pass over the bridge will follow the line of least resistance and continue out San Pablo avenue without touching Richmond at all."

He suggested the advisability of placing signs to attract the attention of motorists to Richmond. (Continued on Page 8)

## S. F. Sea Scouts Sail To Richmond

Sailing across the bay in 54 minutes, the Galileo Sea Scouts of San Francisco brought their navy cutter into the Richmond inner harbor yesterday afternoon, and were given an uproarious reception by the Richmond Sea Scouts, in charge of G. P. Gilneburg, scout executive.

After enjoying a swim at the municipal natorium the Sea Scouts attended the California theatre, and proceeded to Scout headquarters where they stayed last night.

The troop will sail back to San Francisco this morning under the leadership of Captain Baker.

**MRS. WESTON IMPROVED**  
Mrs. J. O. Weston of Richmond avenue was reported improved yesterday though she is still confined to her home as the result of a fall. She received the injury while attending commencement day exercises of the University of California, when she went to see her nephew, John R. Freeman, graduate.

## APPROVAL GIVEN CARQUINEZ SPAN IN SPITE OF PROTEST

Taking action in the face of protests made by the California-Hawaiian Sugar Refining company, Matson Navigation company and other big shippers, the Board of Supervisors of Contra Costa county yesterday inspected and placed its official stamp of approval on the new \$3,000,000 Carquinez bridge, the world's greatest highway bridge.

Just as the Board of Supervisors formally accepted the bridge on behalf of the county, a telegram was received from seven large corporations demanding that the acceptance be refused until such time as the bridge company places "adequate fenders" on either side of the central piers of the bridge in the interest of protection to navigation, to the protection of the bridge itself, and safeguarding the public which will use the great span.

The signers of the telegram stated that army engineers had considered the pontoon system around the central pier as inadequate. Should a large vessel strike the unprotected central piers, they pointed out, a great loss of property would result.

Supervisor C. H. Hayden declared that the matter of pier fenders has nothing to do with the granting of a franchise, and is a navigation problem to be taken up with the War Department.

The powerful shipping interests protesting against the acceptance of the bridge were reported to be pursuing two tactics in continuance of their effort to prevent the span from being opened to traffic. One was a reported appeal to the government officials at Washington, and the other the threat of an injunction suit.

Although the highway approach on the Crockett side is still uncompleted, machines have passed

over the bridge for the past two days. Supervisor Zeb Knott of Richmond had the honor of driving the first machine across the great span.

While the American Toll Bridge company, builders of the bridge, are today facing the most serious of a long series of battles and obstacles to finally have the span ready for actual use, plans are going ahead for the formal dedication next Saturday, May 21.

Commencing at 10 o'clock in the morning, a program of yacht and motor boat racing, rowing and sculling will be staged by the Pacific Inter-Club Yacht Association. William J. Buchanan, chairman of the Contra Costa Board of Supervisors, will be chairman of the day, with Dudley D. Sales as master of ceremonies.

The telegram from the protesting shippers was as follows: "It has come to our notice that American Toll Bridge Co., is attempting to secure the immediate acceptance of its Carquinez Bridge by your Board of Supervisors and plans to open it immediately for traffic. This is not withstanding the statement made yesterday before the U. S. Engineer by Mr. Klatt that the bridge (Continued on Page 6)

## Vargas Makes Denial Of Divorce Charges

Denial of charges of threats against the life of his wife, Mrs. Thelma Vargas, contained in a cross-complaint for divorce filed in the Alameda county superior court, has been made by William F. Vargas of Oakland, formerly of Richmond.

Mrs. Vargas filed the cross-complaint after her husband had sued her for divorce, charging cruelty. A decision of the Oakland court is still pending.

## Air Pilots Keep Eyes On Weather

All Three Planes Ready  
For Long Flight  
Across Ocean

(By Universal Service)  
NEW YORK, May 14.—Like blooded horses racing to go, three American air pilots waited impatiently waiting for weather that will permit them to hop to Paris. The flights that have been delayed from day to day by stormy weather over the Atlantic appeared today to have been put off until Monday or Tuesday.

This has worked somewhat to the advantage of Commander Richard Byrd, the north pole bird, as it gives him a little more time to make his final tests.

The other two planes, those of "Bucky" Charles Lindbergh and Lloyd Bertand and Clarence Chamberlin, have been ready for a day or two.

**Three Wait**  
In fact Bertand and Chamberlin have been waiting for a week or so for trans-Atlantic flying weather. They appeared to have things pretty much to themselves after Nungesser and Voigt failed (Continued on Page 6).

## Relief Fund Now Totals \$4,410

With pupils of the Grant school contributing a sum of \$25—the proceeds from a school play produced recently, Richmond's Red Cross flood relief fund reached a total of \$4,410, it was announced last night by Mrs. Marie Macdonald, secretary of the local chapter.

Announcement was made that due to the continued spread of the flood, donations will be received indefinitely.

## Death Penalty Is Sunday Theme Of Rev. Lindemann

Rev. C. G. Lindemann of Wesley Methodist Episcopal church has chosen for his Sunday evening theme, "The Death Penalty: Is It Christian?" The services will open with a praise service at 7:45 o'clock. Special music by the large chorus choir will consist of a prayer hymn "Softly Pades God," "Hallelujah," hymn "Through Your Sins Be As Scarlet," and a soprano solo, "I Shall Not Pass This Way Again," by Mrs. Erma Shallenberger. At the morning services at 11 o'clock, Rev. Lindemann's theme will be "Why Christian Missions?" Special music, an anthem "Seek Ye the Lord," will be rendered by the choir, and the church quartet will sing "The King of Love My Shepherd Is."

## Divorce Is Asked By Mrs. Johnson

Suit for divorce from Albert Johnson was yesterday filed in the Superior Court at Martinez by Mrs. Margaret B. Johnson of Richmond. In her petition Mrs. Johnson charges that her husband struck her in the face with such force that she was obliged to seek the attention of a physician; that he complained of housewife expenses. The couple were married in 1924 and separated on September 11, 1926. Mrs. Johnson is represented by Attorney Pierce and Carlson.

Mrs. J. S. Spires, of 671 Fifth street, is recovering from an illness that has confined her to her home for some time.

## Cornerstone Of New High School Laid With Ceremony

Masonic Lodge Conducts  
Impressive Rites  
In Ceremony

When the cornerstone of Richmond's new \$600,000 Union High school was laid yesterday, with Dr. George M. Rodden officiating with the trowel, it brought to mind the similar ceremony twenty years ago. In 1907 it was thought that the structure erected then would suffice for all time, but Richmond's rapid growth in industrial and educational progress has rendered the old structure insufficient and a new one absolutely necessary.

The solemn and impressive rites were preceded by a parade of the Knights Templars, under whose auspices the cornerstone ceremony was held. The California Grand Lodge of Masons, who are in back of all things of an educational trend, officiated. Following the laying of the cornerstone by the Rev. Earl W. Haney, then followed the laying of the cornerstone by prominent Masons.

C. C. Olney, Senior Grand Warden; F. L. Arbogast of Oakland, acting Deputy Grand Master; W. G. Blackhart, assistant Grand Secretary, and W. E. Rose, Junior Grand Deacon took part in the rituals in the laying of the cornerstone simply inscribed "Richmond Union High School, A. D. 1927."

B. X. Tucker placed the casket in the slab. The iron box contained copies of the Richmond telephone and city directories, the daily papers; the Record-Herald and the Richmond Independent, the copies of the contracts for the buildings, names of the board members, and program of the day.

Harry Todd delivered an interesting address on the history of Masonry.

He spoke also of George Washington and the wonderful work done by him along educational and cultural lines which Richmond will carry on as the new one. The high school band then played the "Star Spangled Banner" and the large crowd wended its way in an uplifted mood. The "feminine touch" was exemplified by two young ladies playing in the high school band.

## Property Agreement Of Couple Set Aside

A property agreement between Mrs. Luella Rock and George Rock of Richmond, was yesterday set aside by Superior Judge H. V. Alvarado, on petition of Mrs. Rock. Separate maintenance was Rock. Division of community property was also ordered.

Following the signing of the property agreement, it was said, Mrs. Rock asked the agreement be set aside. Rock subsequently filed suit for divorce.

Mrs. Rock was represented by Attorneys Pierce and Carlson.

## Meeting To Be Held By Credit Bureau

Special business will be discussed by the Richmond Credit Rating Bureau at a meeting to be held tomorrow evening at 6:30 o'clock at the Hotel Carquinez.

Attorney T. N. Calfee has returned from a several days' business trip to the southern part of the state.

## SCHOOLS TO BE CLOSED ON JUNE 10

Richmond schools will close on Friday, June 10, for the annual summer vacation. It was announced yesterday by Superintendent N. J. Schools, Walter T. Helms.

With the closing of the spring term, will come the annual exodus of members of the teaching staffs of the artless schools on their summer vacation trips. Some of the teachers, including Mrs. Emily Axtell, Americanization instructor, will leave on foreign tours, while others will make extended trips through the east.

## VERDICT GIVEN IN \$1200 SUIT

Verdict for H. P. Lauritzen, G. B. Lauritzen and N. P. Bush, co-partners doing business under the name of Richmond Navigation and Improvement Company, was rendered Thursday in the superior court of Judge H. V. Alvarado of Martinez in their suit for \$1292.58 against Gustave, Henry and Edward Gardel. The plaintiffs alleged that the defendants had, within the last two years, become indebted to them in the sum of \$1,292.58 for rock, sand, gravel, cement and plaster sold and delivered to defendants at their request. The bills have not been paid upon and the said sum is now due, it was said.

Judge Alvarado's decision was based on the fact that the material had been delivered and used in construction work and the defendants were thereupon required to pay the sum as follows: Edward and Henry Gardel \$466.30 and Gustave Gardel \$826.28.

The Richmond Navigation company was represented by C. D. Horner while T. N. Calfee represented the defendants.

## Rev. Woten To Speak On Post-Mothers' Day Subject

Frank A. Woten, pastor of the First Christian church, announced that he would bring a special post-Mothers' Day sermon tomorrow night on the subject, "One of America's Greatest Needs—Happy Homes" and that a mixed quartet will sing "Home, Sweet Home." His subject for the morning will be "Christianity's Greatest Proof," and Mrs. John Kinstrey will sing a solo.

## Hold Last Rites For John Manis

Last rites for John Manis, sugar refinery worker at Crockett, who passed away at Merritt hospital after a two week's illness will be conducted from St. Mark's Catholic church Tuesday morning at 10 o'clock. Interment will follow in St. Joseph's cemetery.

Manis was 29 years of age at the time of his death. He is survived by his widow, Mrs. Alice Manis, and one brother, James Manis, of San Francisco.

Miss Glessner Chandler, secretary for the Richmond Health department, departed yesterday on a two weeks' vacation trip to Los Angeles. Her position will be filled during her absence by Mrs. Edna Wierda.

Suffering a relapse from her recent long illness, Mrs. Robert R. Root, wife of the Richmond city veterinarian, has returned to Alta Bates hospital for treatment.

## Denies Charge

DENIAL OF charge of withholding details in connection with death of husband, Ray Raymond, in Hollywood fight, was entered by Dorothy Mackaye (above) at arraignment.

## STAGE ACTRESS WAS NEVER WED SAYS EX-WIFE

LOS ANGELES, May 14.—Dorothy Mackaye, stage actress, heatedly denied today alleged assertions by Florence Bain, Los Angeles actress, that she was not the legal wife of Ray Raymond, musical comedy star for whose death Paul Kelly, film player, is on trial here. He died after a fist fight with the screen actor.

Miss Bain was Raymond's first wife and claims they were never divorced, according to news dispatches from New York city.

Instead of a peaceful interlude over the week-end before resuming the witness stand in Judge Charles Burnett's court, where she has already spent seven hours, Miss Mackaye was confronted with an accusation regarding the validity of her marriage to Raymond. They have a four-year-old daughter, Valerie.

She had testified at Kelly's trial yesterday that she was "married to Ray Raymond on August 1, 1921, at Gretna Green, Maryland." The fact that there is no such town in Maryland did not weaken her statement today.

Through her attorney, Roger Marchetti, she said: "Of course we were married and I think the best answer to that is my dead husband's telegram, which was entered in court yesterday. The telegram said: 'You are my wife and the mother of my baby.'"

"I knew Mr. Raymond had been married before he married me, but he did not tell me much about his first marriage. He gave me to understand that he was divorced from his first wife, though I never saw the divorce papers. 'I am told that there is no such town as Gretna Green, Maryland. I can't help that—I was told when we were married that we were in that town.'"

## MRS. LANSMAN STEVERS A FRACTURED LEG

Mrs. John Lansman is confined to her home on Soito avenue, suffering from a fractured leg, sustained Friday afternoon in a fall at her home. The accident occurred while she was working about the house. She was treated at the Emergency hospital by Dr. U. S. Abbott.

## WATER ENGULFS THOUSANDS OF SQUARE MILES

Rich Cane Land Covered

Of Mississippi

By ARTHUR HACHTEN  
(By Universal Service)

BATON ROUGE, La., May 14.—Surging flood waters in the Tensas basin crashed through another levee on Bayou Des Glaives in Central Louisiana today, greatly augmenting the torrent from Moreauville and Cotton Port spreading fan-like over the central and southern part of the state. Ripping through 200 feet in the levee line at Bordeloville the flood waters engulfed more than thousands of persons for the caravans of refugees.

River engineers have given up the Bayou Des Glaives sector to the irresistible flood waters. Seven levees have developed near Moreauville, covering a stretch 3,000 feet wide enabling billions of cubic feet of water to ramble over the rich field of sugar cane, rice, corn, cotton and other commodities.

More alarmed are the authorities over the conditions of the levees along the Mississippi river south of Angolia.

Hundreds of men were rushed to Morgana, about five miles south of the confluence of the old and Mississippi rivers today to try and hold the levees there.

A naval observer reported to John M. Parker, Louisiana flood dictator, that the angry waters already had risen above the top (Continued on Page 8)

## JUST AND JUST!

Sluff, Sluff  
(By Universal Service)

Washington, May 14.—Proposals to require all prohibition agent appointees under civil service to be in sympathy with the dry law were denounced today by Representative Emanuel Celler, of New York. The proposals were attributed to Wayne B. Wheeler, anti-Saloon league general counsel.

"I protest most vehemently against any attempt on the part of the league, or its representatives, to inject Anti-Saloon league politics into our civil service," said Celler.

"Surely the private opinions and views of a government agent have nothing to do with his qualifications as an efficient servant of the government."

**Hey, Hey**  
Princeton, N. J., May 14.—Princeton men are taking their dancing by extremes these days.

While the upper class clubs dance the latest Charleston steps to the jazzy tunes of fourteen saxophone orchestras at the annual houseparty week-end, tomorrow, the English Folk dance club, including members of the faculty, will be staging a demonstration of seventeenth century dancing.

**Ray For Art**

New York, May 14.—Art stopped commerce here today.

The "Pantheon La Guerre" the world's largest painting, was on its way from the French pier to Madison Square Garden, coming from Paris to be exhibited by the Thomas Jefferson Memorial foundation.

Sixty feet long and weighing 11 tons, the package into which the painting was done up had a time rounding the corner into Broadway. It completely blocked the street of theatres for some minutes.

Saved From Bright's Disease;  
Remains Well Eleven Years

San Francisco, May 13, 1927.  
When I first met Fong Wan at Eight and Clay streets, Oakland, eleven years ago, I was suffering from Bright's disease, and my back ached in my back and extended to my legs and knees and was so severe that it was difficult to move around. I had previously gone to several kidney specialists, who had pronounced my trouble Bright's disease, but had not been able to do me any good. Then I took the Fong Wan Herb Treatment, and I have felt fine during all these years.  
Being a traveling man, I have to ride day after day all over the State. This is naturally very hard on my kidneys. As a matter of precaution, every spring I take one or two weeks of the Fong Wan Herb Treatment and thus keep my kidneys in good shape.  
I have known Fong Wan so long that he has become my friend as well as my healer. I have recommended a number of my acquaintances to take the Fong Wan Herbs, and without exception they have obtained satisfaction on results.

## RIOTOUS FARCE OPENS SHOWING AT CALIFORNIA

Declared by critics everywhere to be a masterpiece of light comedy, the Paramount picture, "Afraid to Love," starring Florence Vidor, opens at the California Theatre today with Clive Brook, the handsome English actor, as leading man.

As Katherine Silverton, the impoverished aristocrat, Miss Vidor deftly and gracefully depicts the girl who has made her way in the world as a singer and dancer, and who is a "sophisticated" girl with a "black" heart, ready to do anything for a man.

Paradoxically she does this to win the love of Sir Reginald Holman, who is a "sophisticated" man, and who is a "black" heart, ready to do anything for a woman.

Miss Vidor is willing that her gentleman friend may come one day in order to salvage the inheritance, but only a honest, brave and acceptable Katherine Silverton, in her disguise, appears homely enough to fill the bill.

Complications ensue when it is discovered that the homely splotter is in reality a beautiful and cultured gentleman, and that the girl who appears to be a poor adventuress is a poor adventuress.

The story develops into a riotous farce when all three leave for Paris.

Joel Lee gives a creditable performance as the vamp, Helen Seymour, and other members of the cast who acquit themselves well are Norman Trevor and Arthur Lubin.

Other features on the same program include Felix the Cat; Fox News; Weir's Californians; Larry Canelo at the organ; and five big acts of vaudeville.

## "HOME MAKER" HOLDS SCREEN AT RICHMOND

Who was the real home maker in the Knapp family? Was it the wife? The answers to these questions are to be found in "The Home Maker," Universal Jewel screen play now the attraction at Richmond Theatre. Universal is featuring Alice Joyce and Clive Brook in this adaptation of Dorothy Canfield's well-known story of the same name and has grouped a splendid lot of players about them. Frank Newberg, George Fawcett, Margaret Campbell, Martha Mattox, Alfred Fisher, Maurice Murphy, Billy Schaefer, Jacqueline Wells, Lloyd Whitlock, Virginia Bearman, Mary Gordon, Alice Flowers, Elaine Ellis and King Baggot was the director. Other film features on the same program include "Off His Beat," a Walter Hiers comedy; and a Grantland-Rice "Sportlight."

## FIVE ACT BILL AT CALIFORNIA

Heading the five act bill to be seen at the California Theatre today is Elaine Tichnor and her girl friends in a pretty staged singing and dance offering that is right up to the minute.

The dainty Elaine has been appearing with great success in San Francisco's premier Picture Palace and her supporting company of five pretty girls are all soloists and specialty artists. One of the highlights of the offering are the gorgeous costumes worn in the ensemble numbers these being the latest from Broadway.

Bob Milliken, billed as "The Prince of Wales," is a likeable fellow with a keen sense of the humorous and a sort of two of his own that are worth while. Bob also has some parodies that should evoke much laughter.

"Two Streaks of Black" are Gopaul and McWilliams, a duo of snappy southern performers with song and dance eccentricities all of the modern type that please so readily.

Douglas Alene with dislocations and contortions send the show off merrily whilst Harry and Gurly with thrill after thrill in mid air close the show with an act of daring and skill that has the audience in a shimmer of excitement from start to finish.

## Dancer Foils Detective

GILDA GRAY and TOM MOORE in a scene from "CABARET" which commences the screen of the California theatre for two days starting tomorrow.

Unity is the name by which the work of the Unity school of Christianity is known.  
Unity is not a sect but a school of spiritual research. Unity teaches that the principle by which Jesus Christ did his works is still operative.

The Unity publications do not present criticisms of any faith; they give constructive suggestions. Approximately two and one-half million people are at present applying Unity methods to the harmonizing of the difficulties that arise in life.  
Everyone welcome.

## SNUBBERS PUT ON CHANDLERS

Chandler cars, embracing the royal eight, big six, special six and standard six, are now factory equipped with the New Gabriel snubbers according to George Olsen, local dealer.

The adoption of Gabriels followed an extended series of comparative tests by Chandler engineers, during which the action of the exclusive Gabriel anti-pre-loading brake was thoroughly investigated in its relation to Chandler standards of riding quality.

A unanimous decision in favor of Gabriel resulted and, in consequence, current shipments of Chandler cars are fitted with a complete set of four new type snubbers.

## Whippet Conquers Mountain

After climbing the perilous slopes of Stone Mountain, near Atlanta, Ga., breaking the record by 7 minutes, 44 seconds, Chick Murray in a Whippet stock touring car turned around on the summit of the steep mountain and drove the car down to the base under its own power. This picture shows Murray on the descent after the successful climb. The Whippet is the third car ever to have reached the summit of Stone Mountain and returned to the starting point under its own power. Nearly 10,000 persons witnessed the climb. The inset shows Murray at the wheel of the Whippet.

## WHIPPET SIX IS WINNER AT OAK HILLS CLIMB

The Willys Overland Co., Inc., in their Whippet Six claim to have a car which will out pull, out perform and out run any automobile in its price class.

In order to prove this assertion the Willys Overland Pacific Company of California purchased one of each of the most popular light six automobiles running from \$700.00 less to \$375.00 more than the Whippet six and are touring the state giving competitive demonstrations to their dealers and retail salesmen. These are all stock cars, taken out of stock now at the same time, have the same mileage and are all serviced alike.

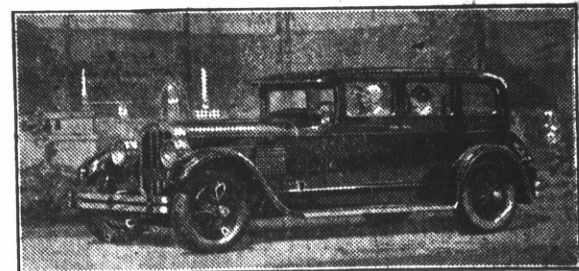

Mr. Jacobsen and Mr. Anderson, local representatives for J. P. Strom, Automotive Merchant, were called to Oakland the morning of May 12th to witness this demonstration and to drive these automobiles in comparison to the Whippet Six. The report gave some very interesting and enlightening facts.

The six automobiles, and also the Whippet Six, after an interesting comparison of specifications and equipment were driven out to Oak Knolls, near Hayward, where a test hill had been selected. The personnel of the meeting was divided into teams, each team consisting of five men. Each team was placed in one of the six cars and each member of the team drove each of the cars on the test hill, later driving the Whippet Six. With the same speed maintained at the bottom of the hill with each of the cars, the same load in every car and each man driving every one of the cars a very fair demonstration was had.

None of the automobiles, except the Whippet Six, made the hill in high gear, one of them even being forced to take low on more than one trip. Not one of them came within twenty-five yards of making the top. The Whippet Six went over in every instance.

Again the Whippet Six had proved that it would out run, out pull, out perform any automobile in its price class. One ride in the Whippet Six will give you an entirely new conception of what a modern light six should be. Its low center of gravity, its 4-wheel brakes, its clear vision windshield, its flash-

ing pickup, its power, its easy handling, not only mean more safety to occupants, but actually give the driver a feeling of security he has never experienced before. You can drive the Whippet Six in comfort all day without experiencing the physical and mental fatigue that usually accompany such trips.

### Stands out in sheer magnificence — and is loaded to the muzzle with power!

THOUSANDS and thousands of people now know why Chandler is making such far-ranging gains in four different price classes. They've seen the cars. They understand.

With aggrandized beauty of design—with interiors sumptuously appointed, fitted, curtained and upholstered—with the fuller development of Chandler's Pikes Peak power principle—the new Royal Eights and Sixes by Chandler can well challenge any comparison on any basis!

Chandler is the undefeated champion of Pikes Peak, highest automobile highway on earth—and also holds the record for the fastest 1000 miles on wheels—1000 miles at 86.9 miles an hour—on the track at Culver City, Cal.

All twenty-eight new models have "One Shot" automatic chassis lubrication. The Sixes range from \$945 to \$1895, and the Royal Eights from \$2195 to \$2295; f. o. b. factory. Just try a ride in any model.

## WILLYS-KNIGHT WHIPPET SETS LOWEST PRICES PRICE IS CUT CLIMB RECORD ON BEST TIRES ON MOUNTAIN IS NEW SLOGAN

A drastic cut in the price of Willys-Knight Great Six closed cars, ranging from \$200 to \$305, bringing the Willys down to the lowest priced car of its weight and class, according to an announcement of J. P. Strom, local Willys-Overland dealer.

The reduction brings the cost of the Great Six sedan from \$375 to \$2270, delivered in Richmond.

Shattering the previous time record by seven minutes, 44 seconds, a Whippet stock touring car, with Chick Murray at the wheel, conquered the almost impassable, roadless climb up the side of the famous Stone Mountain, near Atlanta, a few days ago with a crowd of nearly 10,000 Georgians lining the steep slopes. The Whippet made the climb in 9 minutes, 16 seconds and gained the distinction of being the only car of small piston displacement to ever reach the summit of this steep mountain under its own power.

Not only did the Whippet set a remarkable record in its climb up the mountain, which is nothing more than a solid rock with no roadway, but the efficiency of the 4-wheel brake equipment on the Whippet was proved when Murray turned the car around on the summit and began the perilous descent. Several times Murray brought the Whippet to a complete stop selecting the steepest slopes for this exhibition.

Thousands who saw the remarkable performance of the Whippet agreed that it was one of the most unusual accomplishments in automobile annals inasmuch as the car had no road or trail to follow other than the pedestrian path which winds up the mountain side over boulders and numerous crevices and ruts.

Despite the amazing speed with which the car essayed the climb, the record would have been considerably lower had no over-anxious spectators crowded the path upon two occasions compelling Murray to bring the Whippet to a dead stop on the steep slopes. The Whippet was the third car that ever climbed Stone Mountain and returned to the bottom under its own power.

The official time of the climb was caught by Al S. Jones, representative of the Atlanta Automobile Association, affiliated with the American Automobile Association. The Whippet used by Murray in the record breaking climb was the same car he used two weeks previous in smashing the record from Atlanta to Macon, making the trip in 1 hour, 53 minutes, beating the crack Dixie Flier, one of the best trains in the south. A week later the same car and driver established a new world's record for stock car performance on a dirt track by traveling 225 miles on the Lakewood track at Atlanta for an average of 47 miles an hour.

"The lowest prices in history for better tires than ever," is the slogan that has been adopted by the Western Auto Supply company in advertising their Western Giant and Wear Well Cord tires, according to R. J. Kelley, local dealer.

Graphite rim paint should be applied to the rims of the car before rust sets in is the advice of the Western Auto Supply company. A small can of this paint should be kept in the car and applied to the rims when tires are changed.

Inner tubes will give better service and last longer if a new tire flap is installed when the old one shows wear or starts cracking, according to the Western Auto Supply company.

The top of the automobile should be perfectly dry and clean before applying top dressing is the advice of the Western Auto Supply company. The dressing fills the small cracks in the top that are invisible to the eye and seals the covering against moisture.

A wedge shape cushion placed at the back will aid materially in resting the driver is the belief of the Western Auto Supply company. Persons of short stature will find that it aids them in reaching the pedals and adds to driving ease.

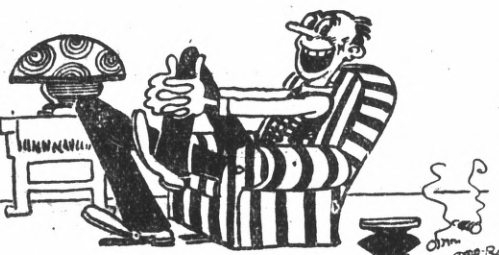

The license plate can be more securely fastened to the car and will receive better protection if encased in an aluminum holder is the advice of the Western Auto Supply company. Combined with town plates to match, they add to the appearance of the car.

## OLYMPIC CLUB BEATS CARDS IN BIG MEET

(By Universal Service)

SAN FRANCISCO, May 14.—The Olympic club track team walked off with the honors at today's championship meet of the Pacific association at Kezar stadium with a total of 53 1-2 points. Stanford university was runner up with 44 1-2. Other competitors were: University of California 35; Nevada 9; Italian Athletic club 8; Modesto Jr. College 6. A stiff cold drove the 1,200 spectators out of the stadium before the close of the meet so that the final events were run off practically without an audience.

## WHISKERY WINS DERBY CLASSIC

(Copyright 1927, Universal Service)

CHURCHILL DOWNS, Louisville, Ky., May 14.—By just about the width of a swollen lip, Whiskery beat Osmand in the Kentucky derby this afternoon, with Jock third. It was Whiskery by a whisker, you might say. All the money went to millionaires. "To him who hath shall be given" they say. Harry Payne Whitney, the New York millionaire, owns Whiskery. J. E. Widener, the Philadelphia multi-millionaire, owns Osmand, and Edward B. McLean the Washington multi-millionaire owns Jock. A poor man's horse couldn't even get the crumbs from the rich fellows' table today, and the 85,000 members of the proletariat who were fondly hoping that some horse like Rolled Stocking might take it, gathered up but a mild whoop for the winner.

Once before Harry Payne Whitney won the Kentucky derby, his filly Regret taking it in 1915. She was the only filly that ever won the race. And Whitney, then a member of America's big four team and younger than he is now, dashed out on the track to gleefully welcome telegram telling him of the death of the Lusitania of his dearest friend, Alfred Gwynne Vanderbilt. Whitney abandoned racing that year, his stable running in another's name.

No sorrows attended him this afternoon as Whiskery stuck his nose in front of the iron gray Osmand right at the wire, and Whitney went out on the track to see his colt loaded down with floral tributes that the critter promptly tried to eat, thinking it a reward for the tremendous effort that gave his owner some \$51,000. This would be about one

## SANNIES TO PLAY MARTINEZ NINE IN TILT TODAY

Phil Jones' Richmond Sannies will make a determined bid to get into the running again for Three C League championship honors when they clash with the Martinez club this afternoon at the First street ball park.

At present the locals are in third place with two victories and two defeats. Skipper Roberts, former Standard Oil league star, is manager of the Martinez aggregation.

Patsy O'Rourke, heavy-hitting second sacker, will not be in the lineup today owing to the fact that he is scheduled to bowl in the Pacific Coast Bowling Congress championships in Oakland. He will be replaced by Ridge Greathouse, versatile tosser.

The Sannies will line up as follows: Witt, p; Moss, c; Surgin, 1b; Greathouse, 2b; Daley, ss; Barbieri, 3b; Amadee, lf; Biggs, cf; Axley, rf.

button off Whitney's vest.

Mr. Big Bill Thompson, the new mayor of Chicago, and one of many visiting mayors, also gave Whitney a handsome gold cup for his whatnot in the parlor of his home, if millionaires may be said to have parlors, or even homes.

That Handy Guy named Sande, riding the iron gray Osmand, might have won the race but he put in most of the mile and a quarter hotly chasing Jock. He finally caught him all right, but Osmand didn't have enough left to stand off Whiskery's rush in the last few hundred yards with "Pony" Maetes kicking and clawing, at the Whitney colt.

## APPROVAL GIVEN CARQUINEZ SPAN IN SPITE OF PROTEST

(Continued from Page 1)

would not be opened until May 21st, 1927. We direct your attention to the fact that the bridge company provides in terms that said bridge shall be constructed in accordance with the requirements of the U. S. War Department and further that the permit for the War Department requires "such fenders as may be found necessary in the interest of navigation and approved by the chief engineer shall be constructed and maintained at each pier of said bridge by and at expense of its owners." The bridge company has utterly failed and neglected to provide any protection to its central piers and as was shown in the testimony before the U. S. engineer yesterday the entire bridge would be destroyed if a large vessel should collide with the central piers of the bridge.

Testimony showed that this would be a disaster if adequate fender protection were provided by the bridge company as required by its War Department permit and by your franchise.

It was also shown that large loss of life would unquestionably result were the bridge to be so destroyed while in use by the public. This telegram is sent to you for the purpose of bringing these matters officially to your attention and to point out that any acceptance of the bridge by you at the present time in the absence of adequate fender protection, thus permitting the use of the bridge by the public would endanger the lives of all who use it, and would be in violation of the terms of the expressed provisions of the franchise, and to point out that the acceptance of the bridge under these conditions would subject your county and you as individuals to possibly larger claims for damages. Testimony yesterday before the U. S. engineer shows that the central piers had been under construction for almost a year and had been finished in August, 1926, but that the bridge company did not start preparing plans for fender protection until November, 1926.

U. S. engineer yesterday stated to officers of the bridge company that small pontoons now in position were not considered by the U. S. as affording any protection whatsoever to navigation.

We direct your attention to the fact that no attempt has thus far been made to comply with the conditions of your franchise or of the War Department permit. It is demanded that no action looking toward the acceptance of the bridge by you or the opening of the bridge for traffic be taken until due and adequate notice has been given to all interested.

## Air Pilots Keep Eyes On Weather

(Continued from Page 1)

to arrive from Paris, until Lindbergh came roaring out of the west the other day, and calmly announced that his next stop is Paris.

### On Even Terms

Byrd has made good use of the last day or two and is now on practically even terms with his rivals for a hop off.

"Even terms" means an advantage for Byrd.

All three planes were in the air today for tests. Lindbergh was the first to ascend. In fact he was zooming around before the others had rubbed the sleep from their eyes. They came from their hotels helter skelter because they didn't know what he was up to.

He has kept everybody guessing since he came here. Everyone is keeping their eyes on Lindbergh. No one can tell when "the flying fool" will hop off.

But when it was found he was merely testing a new compass the rival aviators sighed with relief and sent their own planes aloft for tests.

They were followed by a plane full of cameras and as the four airships played about in the sky, the crowds at the field felt they were rewarded for waiting.

So another day went by while the aviators cursed the weather man and kept their eyes on each other.

### FRENCHMEN MISSING

ST. JOHNS, New Foundland, May 14.—The governor of Newfoundland today stated that the rumor that Captains Nunceger and Coll, French trans-Atlantic fliers, were found at Trinity, here, is unfounded. According to United States Consul Warren.

It had been reported that an amateur radio fan had picked up a message from Trinity, purporting to be from the missing fliers, and indicating that they had landed at Trinity.

### SEARCH ABANDONED

WASHINGTON, May 14.—Because of adverse weather conditions, the navy today temporarily abandoned its search for the

## FAIRMONT P. T. A. MAKES APPOINTMENT

The nominating committee of the Fairmont Parent-Teachers association has chosen Mrs. I. B. Salturi to take the office of president during the coming year providing she will accept. She is now vice-president elect. The late President Marion Wright appointed the nominating committee recently. Her new duties as financial secretary will begin on July 1.

The nominating committee, consisting of Mrs. Lucy Redding, Mrs. G. W. Barber, Mrs. Harry Ross, Mrs. E. L. Sherman, and Mrs. Hazel Brennum, will confer with Mrs. Salturi before the next meeting, which is to be held on Tuesday, May 17, at 2 o'clock at the school.

Following the business meeting the association will hold a public whist party.

Missing French aviators, Nunceger and Coll.

The new tug Mohave and Wandank were recalled to the Boston navy yard because dense fog over the North Atlantic rendered the search futile. The tugs will be sent to sea again, however, to keep a sharp lookout when American flyers hop off for Paris.

The plan to send the dirigible Los Angeles to Labrador was also postponed indefinitely because a shortage of helium made luncheon and Portuguese dancing the trip unfeasible.

## Holy Ghost Fiesta To Be Held In San Pablo

Arrangements are nearing completion for the annual Holy Ghost fiesta to be held at San Pablo, on June 4, 5 and 6. The affair will be ushered in with a parade on Saturday evening, June 4, from the hall to the home of John Quadres, where the crown will be obtained.

The assemblage will then return to the hall, where dancing will be held from 8:30 to 10 o'clock. Dancing will follow until 1 o'clock. On the following day, Sunday, there will be a parade from the hall to the home of Manuel Rose for the crown. A return to the hall will then be made, and a general parade will start from there. Included will be three drill teams, the queen and her attendants and two bands, which will march around the town until the church is reached at 10:30, when mass will be read and the queen crowned. Lydia Lutz, queen of the celebration, will be attended by Mary Faria and Genevieve Rosa as flower girls, and Dorothy Moitoza, Mary Garcia, Estelle Regello and Olivia Repetto as attendants.

The crowning ceremonies will be followed by a free barbecue lunch served at the hall, with dancing scheduled for 3 o'clock. The final day of the celebration will be Monday, June 5, with a cause a shortage of helium made luncheon and Portuguese dancing the trip unfeasible.

### DO YOU KNOW WHY --- Women Save All This Junk?

## FIGUREHEAD ON PROW OF NEW CAR MODELS

Following the custom set by the old time sailing vessels, many motor car manufacturers have placed an emblematic figurehead on the prow of their new models.

This new trend toward enhancing the otherwise plain radiator cap is more noticeable than ever before. Figures from mythology and emblematic of the car's sturdiness, beauty and speed have appeared in such profusion that it is rapidly reaching the point where cars are recognized by their radiator cap emblems.

A winged goddess has been chosen by Buick, significant of great speed and beauty. Another General Motors product, the Pontiac is easily recognized by its Chieftan head radiator cap.

The Sun God Ra forms a very important part of the radiator and name plate equipment on the new Stutz. The mark of Ra is found on the oldest throne chairs and in the oldest temples. It is one of the oldest symbols known to man.

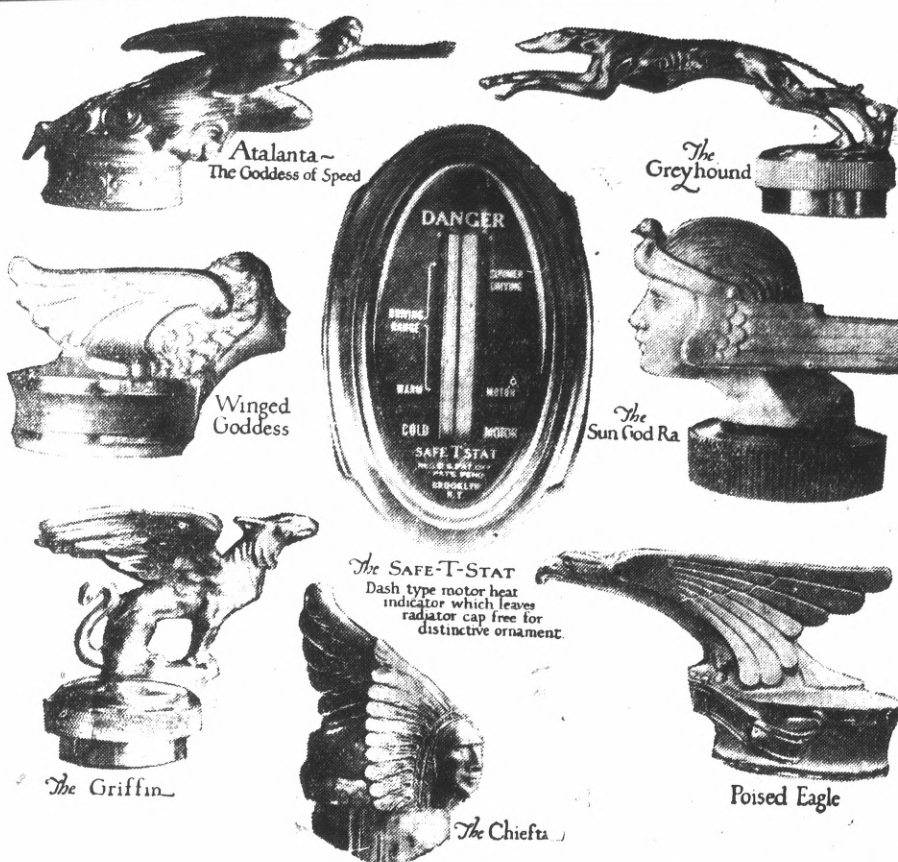

Atlanta, the goddess of speed graced the radiator cap of the Studebaker. This emblem is symbolic of unmatched fleetness, unapproached loveliness and grace, together with joy in accomplishment and unflinching endurance.

The little Marmion is identified by a poised eagle. The grace and speed of the greyhound has been caught in designing the Lincoln radiator cap figure. A part of the Gardner family's coat of arms has been used in designing the emblem of the car that bears their name. The body of a Griffin distinguishes the Gardner car from all others.

Many motorists are following this new plan of enhancing the radiator cap and are equipping their cars with the motor heat indicator that attaches to the instrument board and leaves the cap free for an ornament of more pleasing design.

The Western Auto Supply company is displaying both models of the Safe-T-Stat motor heat indicator which once attached to the instrument board is in plain sight of the driver both day and night.

mond, thus making it possible for Packer and Pullman avenues and Twenty-third and Tenth streets to share equally in the benefits of the resultant traffic.

"Richmond is facing the greatest crisis of prosperity that any East Bay city has ever been privileged to enjoy," Epperson declared.

"Ford's decision to locate an assembling plant here has little to do with the optimistic outlook after all. Richmond's growth has been rapid, and the factors of growth are enough to guarantee its development."

Epperson is strong in his assertion that Richmond will gradually extend out until the center of business will be beyond Twenty-third. Giving examples of Oakland which until a few years ago was centered around Seventh street and New York which has extended from the Battery to Forty-second street, he said that Richmond is showing now the tendency of all cities to grow away from what ordinarily was thought would be the locus of industry.

A large part of the preliminary street work has been completed in Metropolitan Square. The streets have been named and business and residential sections plotted out.

The Murdoch tract is 60 acres in extent and extends from Macdonald avenue on the north to the Santa Fe tracks on the south; from Twenty-third street on the west to the Nicholl tract on the east.

Metropolitan Square has been divided into business and residential sections. The commercial zone is in the shape of a triangle extending along Macdonald and Twenty-third, including Twenty-fourth, Twenty-fifth, and Twenty-sixth streets intersected by the main arterial Broadway, which forms the longest side of the triangle. The remainder of the tract east to the Nicholl tract past Twenty-ninth street is bounded on the south by the Oakland branch of the Santa Fe tracks and will be devoted to residential purposes.

The opening date in which no restrictions will be made as to sale to local or outside people has not yet been set. Epperson advised that this would be announced in the Record-Herald as soon as the result of the pre-opening sale was known.

Besides his real estate activities, Epperson has recently obtained domestic and foreign patents on "Pop-Sickle" one of the latest East Bay contributions to ice confections.

## WATER ENGULFS THOUSANDS OF SQUARE MILES

of the main levee and were battering against the makeshift levee built on top during the last few days. He reported the situation there as "extremely critical."

A crash in the levee line there would result in the entire Atchafalaya Basin, which lies between the Atchafalaya and Mississippi rivers, being inundated. Six parishes or more than a million acres of land would be engulfed and 75,000 persons would be flooded out, should a crevasse occur there.

Men are also working frantically on the levee line at Terras an old river, building up that barrier against the crest of the flood waters which has yet to come.

I. M. Cline, government meteorologist at New Orleans figured that the water would steadily rise during the next five days. Old River represents the neck of the bottle for the water sweeping southward down the Tensas basin.

## Is Seventeen Cents A Day Worth Saving?

A customer recently checked up her bill and remarked that she had saved just \$1.19 by paying cash.

This may seem like a small sum, but if repeated every week for a year she would have saved over \$60.00—the price of the use of \$1,000. Everyone realizes the importance of \$1,000 but we often fail to pay enough attention to the \$1.19—seventeen cents a day.

The J. C. Penney Company through its enormous buying resources have helped many American homes to save this 17 cents a day, while enjoying the utmost in quality and service for every dollar expended. Our policy of paying cash for our purchases results in a substantial saving, which we prefer to pass on to our customers.
